👤 lukebenda 📍 Minneapolis, MN

Cybersecurity risk and compliance leader with 5+ years advising clients across PCI DSS, NIST CSF, and vulnerability management engagements, and 8+ years in IT. Leads a multi-client advisory practice, translates technical and compliance gaps into executive-ready remediation roadmaps, and reviews incident response plans, tabletop documentation, and business continuity procedures as part of client assessments. Minnesota Copilot Champion driving AI-enabled process improvement across engagement delivery.

## 🧠 Skills

### Languages

*Python, Bash, PowerShell, Swift,  
HTML/JS/CSS*

### Tools

Qualys, Kali Linux, Metasploit, Burp Suite, Nmap, Active Directory, Splunk, MS Defender, CrowdStrike

### Frameworks

PCI DSS, PCI ASV, NIST CSF,  
HITRUST

### Cloud Security

AWS & Azure basics, IAM

### Technical Communication

Report writing, Presenting

## 📁 Professional Experience

### Supervisor, Cybersecurity Risk & Data Protection, RSM US LLP

July 2021 – Present | Minneapolis, MN

*Promoted: Associate → Senior Associate (Aug 2023) → Supervisor (Aug 2025)*

- Lead the firm's PCI ASV scanning practice, overseeing 7 team members, 35+ client accounts, 100+ vulnerability scans to date, and vendor & billing operations
- Own delivery for 5–12 concurrent client engagements spanning PCI and NIST CSF assessments, stepping in to lead engagements when assigned project leaders depart and bringing clients to compliance
- Assess clients' logging, monitoring, and incident response posture against various frameworks (PCI, NIST CSF, etc.), identifying critical SIEM coverage gaps and delivering phased remediation roadmaps covering solution selection, log integration, alerting design, and team training
- Review incident response plans, tabletop exercise documentation, and business continuity procedures as part of compliance assessments, flagging gaps between documented and operational readiness
- Present compliance and vulnerability findings to IT, security, and GRC leadership across 15+ client engagements over 3+ years, educating clients on PCI DSS and ASV requirements through project walkthroughs and presentations
- Mentor 5+ associates and senior associates through technical coaching and career development, and train new ASV personnel across domestic and international teams
- Serve as Minnesota Copilot Champion, advising Risk Consulting team members on practical AI use cases and building a custom Microsoft Copilot agent to streamline ASV scanning delivery
- Contributed \$430K+ in FY25 and \$670K+ in FY26 sales activity through pursuit-team support, including contract setup, forecasting, and RFP development

### Teaching Assistant, Cybersecurity and Hacking, CodePath (part time) ☑

January 2022 – April 2022

- Instructed 50 students in cybersecurity fundamentals through breakout sessions and office hours, and completed 50+ CTF exercises based on the OWASP Top 10 covering penetration testing, social engineering, and honeypot simulations

## Certificates

**AWS Certified Cloud Practitioner (CLF-C02)**

**GIAC Security Essentials (GSEC) certification**

**Payment Card Industry Associate Qualified Security Assessor (PCI AQSA)**

**Approved Scanning Vendor (PCI ASV)**

**HITRUST Certified CSF Practitioner (CCSFP)**

**ISACA CISA**  
In Progress

## Education

**B.S. Computer Science | B.A. Cybersecurity,**

St. Ambrose University

May 2021 | Davenport, IA

- Minor in Criminal Justice
- Baseball student-athlete

**Intern, Information Technology, CBE Companies**

May 2018 – July 2021 | Cedar Falls, IA

- Built and ran a phishing simulation and training program for 1,000+ employees monthly, revealing that 25% of staff were unprepared for phishing attempts and informing company security awareness strategy
- Led a SharePoint migration project, designing 11 department sites and auditing 200+ sites for usage and data governance

**Intern, DevOps Engineer/Identity & Access Management, CUNA Mutual Group**

June 2020 – May 2021 | Madison, WI

- Supported enterprise IAM operations, including a LastPass rollout for 3,500+ employees to day-to-day access and certificate management
- Restructured a GitHub repository for vendor code exchange and built 10+ CI/CD pipelines to automate deployments

**Intern, Cybersecurity Research & Data Analytics,**

U.S. Army Combat Capabilities Development Command

June 2019 – August 2019 | Rock Island Arsenal, IL

- Researched supply chain cybersecurity risk related to counterfeit products and published findings on the DoD's counterfeit risk management portal, referenced by thousands of federal employees
- Analyzed DoD and internal QA data to improve equipment testing efficiency

## Leadership & Community Involvement

**Minnesota ISACA Board – Education Committee**

2024 – Present

- Organize chapter education events and lead planning for annual meetings of 50+ attendees
- Coordinate bringing outside instructors, including a CISA exam bootcamp, to RSM Minneapolis

**RSM Campus Recruiting & Employee Network Groups**

2021 – Present

- Volunteer at campus recruiting events and career fairs to identify and engage prospective new hire candidates
- Participate in employee network groups to support firm-wide community and engagement initiatives
